About Me

I already have experience such as customer service, pos system flow (Entry, Setup, Report), knowledge of office 365 and internet tools and solve the problem in any situation. I'm a quick learner, so easy to understand every process in a short time.

Professional Experience

555555
01/04/2024 - 28/04/2025

I worked in Data-Entry for a year when I attending to my high school. After that, I got experience in Galaxy software such as like data-entry and process of software.

YZ Nextx Integrity
01/05/2025 - 30/10/2025

This's external service teams for Galaxy. In this job, I was a service engineer. Mainly I was working on support to my teammates when they need software, hardware and program like remote software, drivers installation, windows, office cracked file, voucher design, fixing some issue in software and hardware but sometimes I went to customer sides, then I used to discuss for training, fixing some issue and note new features what they want.

We Win Delivery
01/11/2025 - 05/01/2026

For junior accountant position, it was my first experience in accountant field. I used to learn how to make report of expense and income and just support to senior accountant .

Achievements

- Web engineering basic (frontend)
- Computer Adv
- OOP Language (Python)
- General English
